

CORRECTIONS TO REFERENCES [15] and [31]

Citation [15] is partially incorrect. This work was published in a journal last year. Here is the correct citation:

D.W. Embley and S.W. Liddle and D.W. Lonsdale and S.N. Woodfield, Ontological Document Reading: An Experience Report, *Enterprise Modelling and Information Systems Architectures: International Journal of Conceptual Modeling*, Vol. 13, 2018, 133–181.

A penultimate draft of this paper is available at <https://tango.byu.edu/papers/>.

NB: this was a special issue on Conceptual Modeling in Honor of Heinrich C. Mayr

Reference [31], describing BYU experiments with the books processed in this paper, was an invited contribution to an ER workshop to be held in Salvador, Brazil, in November 2019.

I was informed of the cancellation of the workshop on the day after this paper appeared on-line.

The authors of [31] plan to resubmit their paper at to a forthcoming workshop. When it is published, I will post the new citation here. In the meantime, the draft is available at <https://tango.byu.edu/papers/>.

With apologies,

George Nagy
